

U-Multirank top 25 performers in international joint publications

In this list we present the U-Multirank 2016 top performers on the indicator 'international joint publications'.

The percentage of international joint publications reflects the degree to which a university's research is connected to international research networks.

The list of the 25 top performers does not include any US universities; their major partners in research cooperation are mostly other US universities. The list is characterised by a diversity of countries; higher education institutions from 19 different countries are represented. The list includes some higher education institutions from small countries (e.g., Liechtenstein, Luxemburg, Slovenia and Iceland) which do not have a large number of potential collaborators within their country. The top performer is a university of applied sciences from Austria; the top two are small institutions with a small absolute number of publications but with a high percentage of these internationally co-authored (more than 80 % each).

The 25 top performers in international joint publications are:

UAS Wiener Neustadt (Austria)
U Liechtenstein (Liechtenstein)
King Abdulaziz U (Saudi Arabia)
Qatar U (Qatar)
U Guglielmo Marconi (Italy)
I. Javakhishvili Tbilisi State U (Georgia)
Moldova State U (Moldova)
Reykjavik U (Iceland)
School of Hygiene & Tropical Medicine (United Kingdom)
IESEG School of Management Lille (France)
King Abdullah U Science & Technology (Saudi Arabia)
U Luxembourg (Luxemburg)
Beirut Arab U (Lebanon)
Kwame Nkrumah U Science & Technology (Ghana)
Mohammed V U Rabat (Marocco)
HEC Paris (France)
Technical U Federico Santa María (Chile)
U Nova Gorica (Slovenia)
U Lugano (Switzerland)
Cardiff U (United Kingdom)
King Saud U (Saudi Arabia)
U Mons (Belgium)
U Aberdeen (United Kingdom)
Catholic U Peru (Peru)
U Balamand (Lebanon)

The list is sorted by indicator scores in descending order; possible ties are not marked.

Information about the indicator:

Indicator	International joint publications
Dimension	International Orientation
Definition	The percentage of the university's research publications that list at least one affiliate author's address located in another country.
Data source	CWTS/Thomson Reuters - Web of Science Core Collection
Time reference	period 2011-2014
