

U-MULTIRANK 2020

French Universities in Global Comparison

U-MULTIRANK 2020

U-Multirank is a unique, multi-dimensional and international ranking of higher education institutions. It compares university performance across teaching and learning, research, knowledge transfer, international orientation and regional engagement. It is the largest and most inclusive ranking showcasing the diversity in higher education around the world. It is not a league table and does not use composite indicators, nor reputation weights. Therefore, there is no one best university in U-Multirank. The performance of a university is presented with individual scores – graded from 'A' (very good) to 'E' (weak) across the different areas.

U-Multirank's 2020 edition presents data on 54 French higher education institutions. For the full list of all universities from France included in U-Multirank, please visit our [website](#).

AT A GLANCE: HOW DO FRENCH UNIVERSITIES FARE IN U-MULTIRANK?

- With regard to U-Multirank's five performance dimensions, French institutions perform strongest in the dimensions International Orientation and Teaching & Learning: In both dimensions, more than 70% of all indicator scores of French institutions are ranked in groups "A" or "B".
- 17 French institutions reached a top group position ('A' score) in more than 10 indicators. This includes business schools and technical universities/institutions, comprehensive institutions as well as an institution specialised in the Social Sciences.
- Among the French institutions with the highest number of top scores, Télécom Paris (18 'A' scores), École Centrale de Nantes, IMT Atlantique and Montpellier SupAgro (16 'A' scores each) hold the highest number of top positions.
- Those four top performers (Telecom Paris, École Centrale de Nantes, IMT Atlantique, and Montpellier SupAgro) are strong in Research, Knowledge Transfer and International Orientation.
- French institutions achieved 15 global 'Top 25 Performers' positions in a set of six (6) indicators; in student mobility, French institutions account for eight (8) out of the 25 global top performers, in co-publications with industrial partners for three (3).

WHICH ARE THE TOP PERFORMING UNIVERSITIES IN FRANCE?

Télécom Paris received the highest number of 'A' (very good) scores on the institutional level for France in 2020.

In this section we highlight the universities receiving the highest number of 'A' (very good) scores on the institutional level for the respective country.

Although the number of 'A' scores shows top performance for the respective university, it does not imply one university is the 'best' in the country, as each university profile highlights different strengths.

French universities with the highest number of overall top scores in 2020	Total 'A' scores 2020	Total 'A' scores 2019
Télécom Paris	18 ↑	16
École Centrale de Nantes	16 ↑	14
IMT Atlantique	16 ↑	14
Montpellier SupAgro	16 ↑	13
Toulouse INP	15 ↑	12
AgroParisTech	15 =	15
EDHEC Business School	15 ↓	20

The list includes different profiles of institutions: comprehensive universities, as well as business schools and technical universities.

WHAT ARE THE PERFORMANCE PROFILES OF FRANCE'S TOP SCORING UNIVERSITIES?

Using our unique sunburst chart, a clear picture is shown of the university's overall performance (the longer the bar, the higher the score).

WHAT DO FRENCH UNIVERSITIES DO BEST?

13 French universities have achieved a global Top 25 score in 2020

TOP 25 PERFORMING UNIVERSITIES IN STUDENT MOBILITY

By U-Multirank

In this list we present the U-Multirank 2020 top performers on the indicator 'student mobility'. Having an international student body and offering students the opportunity to study part of their degree-programme abroad is an indication of the international orientation of a university. In order to provide a full picture of mobility and international exchange U-Multirank takes into account both incoming and outgoing mobility.

HOW DO FRENCH UNIVERSITIES PERFORM GLOBALLY?

French higher education institutions perform strongest in U-Multirank's International Orientation and Teaching & Learning dimensions.

Above or below average?

In this section we highlight the overall performance of French universities on the institutional level per U-Multirank dimension.

The below table shows the national breakdown of French universities and how they stand across the spectrum of above average (receiving a score of 'A' (very good) or 'B' (good)), or below average (receiving a score of 'D' (below average) or 'E' (weak)). In doing so, U-Multirank offers a clear picture on the countries strengths, and areas for improvement.

APPENDIX

DETAILED RESULTS

If you want to analyse further the performance of the universities in your country you can click the following links.

The below links lead directly to the national results pages where we pre-filtered the universities in your country into one list (for the university as a whole and for the subject areas included in U-Multirank so far). You can use the table to produce national rankings (see image below), or for personalised interactive analyses with the data.

If you're interested in tailor-made tables (institutional level, subject level, or with a specific focus in mind, such as internationalisation), please contact us, at info@umultirank.org. These links are also accessible via your country's 'Study in' page.

WHAT IS U-MULTIRANK?

U-Multirank is a multidimensional, user-driven approach to international ranking of higher education institutions. It compares the performances of higher education institutions – in short: universities – in the five dimensions of university activity:

(1) teaching and learning, (2) research, (3) knowledge transfer, (4) international orientation and (5) regional engagement.

The U-Multirank web tool enables comparisons at the level of the university as a whole and at the level of specific study programmes. Based on empirical data, U-Multirank compares institutions with similar institutional profiles ('like-with-like') and allows users to develop their own personalised rankings by selecting indicators in terms of their own preferences.

Based on the results of a feasibility study covering 150 universities which was carried out in 2010/11, the European Commission decided to fund the implementation of U-Multirank. This roll out is carried out by a consortium led by Professor Frans van Vught of the Center for Higher Education Policy Studies (CHEPS), University of Twente in the Netherlands and Professor Frank Ziegele of the Centre for Higher Education (CHE) in Germany as well as the Centre for Science and Technology Studies (CWTS) from Leiden University, Fundacion CYD and Folge 3. U-Multirank is funded by the European Commission, the Bertelsmann Foundation and Banco Santander. The consortium also works closely with a range of national ranking partners and stakeholder organisations.

The work of the U-Multirank consortium is overseen by an Advisory Board.
