

SWISS UNIVERSITIES IN GLOBAL COMPARISON

2021 STUDENT REPORT

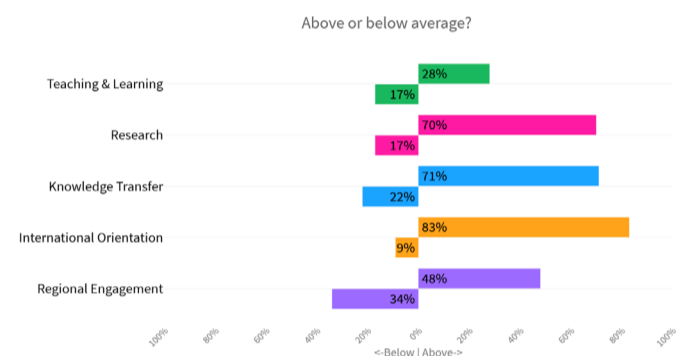

Finding the best university, study programme or student exchange can be hard. To help students through that process U-Multirank has worked to create a new type of university ranking tool, giving you the power to compare according to what matters most to you. With more than 100,000 students taking part in U-Multirank's annual student survey, it gives you valuable peer-to-peer feedback for some 2,000 universities and colleges from 97 countries worldwide. From this information you can create your own personalised university rankings, comparing them in the areas of teaching & learning, research, knowledge exchange, internationalisation and regional engagement.

U-Multirank's student reports highlight the national performance of universities in Switzerland. The 2021 edition features 12 Swiss universities. For the full list of all universities from Switzerland included in U-Multirank, please visit our master list of universities.

NATIONAL PERFORMANCE OF SWITZERLAND

U-Multirank makes transparent the strengths of a country's higher education system. In its latest edition, Swiss universities show their strongest performance in International Orientation.

TOP PERFORMING UNIVERSITIES IN SWITZERLAND

In this section we highlight the universities receiving the highest number of 'A' (very good) scores on the institutional level for Switzerland. Although the number of 'A' scores shows top performance for the respective university, it does not imply one university is the 'best' in the country, as each university profile highlights different strengths.

Swiss Federal Institute of Technology Zurich (ETH Zurich)	20 'A' scores
Swiss Federal Institute of Technology Lausanne	16 'A' scores
University of Zurich	16 'A' scores
University of Bern	13 'A' scores
University of Lausanne	13 'A' scores
University of St.Gallen	13 'A' scores

LOOKING AT STUDENT MOBILITY

In this section we highlight the universities with the highest student mobility. Rather than only looking at unilateral movement, U-Multirank measures student mobility with both incoming and outgoing students in mind, giving a more well-rounded view on how internationally diverse the student body is. Students interested in this area should explore comparisons according to international orientation.
